Introducing Our Tech-Enhanced Learning Journey

"Empower yourself with knowledge, and technology will become your bridge to the future."

— Anonymous

Dear Parent,

Greetings from Woodlem Park School Al Jurf, Ajman.

We are pleased to inform you that Woodlem Park School, Al Jurf, is advancing student learning by integrating technology into the classroom. This initiative is transforming our students into lifelong learners equipped with essential 21st-century skills.

As part of this transformation, we are excited to launch our Reading Program for this academic year. Powered by AI, this program is designed to strengthen literacy skills and foster a love for reading across all age groups.

☐ Reading Platforms:

1. Level Up Reading Program

Applicable for: KG to Grade 2, Yearly Subscription Fee: AED 45

2. Achieve3000 Reading Program

Applicable for: Grade 3 to Grade 9, Yearly Subscription Fee: AED 75

Each child will receive their own login details and parents can access their account at all times. This will keep you informed about the reading level of your ward. Initially each child will be assigned tasks to check their reading levels and thereafter in their own account reading books/articles/tasks according to each child's need will be provided. With this surely their vocabulary base will expand and their ability to comprehend and respond will increase.

These platforms offer personalized reading experiences, enhance comprehension, and support vocabulary development in an engaging and interactive manner.

Once they develop good reading levels their performance in other subjects will also improve as English is the medium of learning for each subject.

We kindly request parents to make a one-time payment of the above fee, which covers the entire academic year. Payment may be made during May 2025 or June 2025, at your convenience.

Additional Academic Support – At No Extra Cost

We are also pleased to offer the following technology-driven academic support programs free of charge for all students:

- * **Tabbie Math**
- * **Tabbie Science**
- * **STEM Lab** – Focused on enhancing students' skills in Science, Technology, Engineering, and Mathematics

These programs reflect our commitment to delivering a well-rounded, future-ready education that empowers every child.

Thank you for your continued support and cooperation.

Best regards,

Ms. Bhanu Sharma

Principal
